

SAFETY MATTERS

President's Message

Happy New Year!

Welcome to the roaring twenties! I hope everyone enjoyed the holidays. I believe we finished up 2019 strong as a Chapter. What does that mean for 2020? We make it better with great presentations, and great tour and earn some CEUs in April at the PDC.

What comes with a New Year? Resolutions! Company and Personal Work Goals? What are some of yours? I have decided to return to school for my Master's and run the OKC Half Marathon this year. Run is a relative term, there will likely be a lot of walking but training starts NOW! As far as work goals, they include personal development and CSP points, which I will be submitting my CSP renewal for the first time. The OKC Chapter and ASSP Region III PDC are a good way to earn those, whether you are a speaker or an attendee. The OKC Chapter PDC is on 4/9 and we will be looking for speakers in the very near future. Also the Region Student Leadership Conference is looking for speakers for the weekend of April 3rd in College Station. Another great way to earn points is volunteering with the ASSP.

I hope you will join us for our meeting with Justin DeMoss from

PLATINUM LEVEL CHAPTER
2018-2019

the Hough Hearing Institute. He spoke at a WISE (Women in Safety Engineering) in the fall and received great reviews so we decided to bring him back to a regular meeting. FYI – Men can go to WISE meeting as well. On Valentine’s Day, we will meet at UCO. We will have a panel of recent graduates letting us know what they have discovered since graduation. Bring some great questions.

Don’t forget if you cannot get to the meeting, you can watch us on Facebook Live! Be sure to leave us a comment if you do. <https://www.facebook.com/OKC.ASSE.org>

Have a Great Year!

Patrick McGrew CSP, CHMM
President, OKC Chapter ASSP

Celebrations All Around!

Congratulations on 20 years as an ASSP member, Jerrod Moser!

Congratulations on being selected as our 2020 SPY Award recipient, Cody Vinyard!

THANK YOU!

Record Year for the ASSP Clay Shoot Fundraiser

Thanks to the incredible generosity of the donors below and all our participants, the ASSP Oklahoma City Chapter raised a record \$8,000 for scholarships and grants!

From OSHA Region VI ~ Free Webinar on Electrical Safety

Working with electricity can be dangerous. Engineers, electricians and other professionals work with electricity directly. Others, such as office workers and sales people, work with electricity indirectly and may also be exposed to electrical hazards. Electricity has long been recognized as a serious workplace hazard. OSHA's electrical standards are designed to protect employees exposed to dangers, such as electric shock, electrocution, fires and explosions.

To protect these workers, employers must think about preventing injuries and providing workers with the right equipment for the job. A new video developed by the OSHA Region VI Training Institute Education Centers offers guidance on how to prevent injuries and fatalities from common hazards of working with electricity, and how they can be prevented.

The one-hour video focuses on the following topics:

- Personal Protective Equipment (PPE)
- Lockout/Tagout (LOTO)
- Arc Flash
- Best Practices
- Resources

Webinar will be available for viewing on January 27, 2020. Register [here](https://info.alliancesafetycouncil.org/electricity). (<https://info.alliancesafetycouncil.org/electricity>)

JANUARY CHAPTER MEETING

January 10, 2020 @ 11:30 a.m.—1:00 p.m.

Francis Tuttle Reno Campus, 7301 W. Reno Ave., Room A1020

REGISTER HERE

**Speaker: Mr. Justin De Moss, M.A., CFRE Director of Development
Hough Ear Institute**

Every day, we are exposed to noise.

- * At what point does it become harmful?
- * What can we do about it?
- * How is hearing loss associated with Alzheimer's disease?
- * What are researchers doing to help?

The answers to these questions and more will be shared and discussed in an interactive format by Justin De Moss of the Hough Ear Institute.

Justin De Moss is a seasoned philanthropy professional specializing in starting fund development programs or revitalizing existing programs, major gifts, and marketing. Justin utilizes his energetic leadership combined with his creativity to provide strong relationships with others. His relationships with others are what advances his mission: to build better communities and leave a legacy of transformed lives.

Justin also assists nonprofits achieve their fundraising and program goals through his private consulting practice.

Prior to his work in fund development, he worked as a Branch Manager at a Fortune 500 company and a missionary for FOCUS, the Fellowship of Catholic University Students.
