Course Description

ASP Safety Fundamentals Preparation Workshop

Tuesday – Thursday, Sept. 24, 25, & 26, 2019

This is a three-day review course for those preparing for the Safety Fundamentals Examination, leading to the designation of Associate Safety Professional (ASP). This course is an excellent review for those desiring to:

1. Determine whether the participant is ready to attempt the Safety Fundamentals Examination
2. Identify areas where extra preparation is needed.
3. Become familiar with resources available to prepare for the exam.
4. Learn about certification requirements and scoring procedures.
5. Review content material in an informal environment utilizing a "testing" format including an opportunity for discussion.
6. Minimize "test shock" for those who have not taken an exam of this magnitude and importance for an extended period of time.

Day 1

AM Introduction, Review of Fundamentals—Calculator, Algebra, and Trigonometry
PM Review of Fundamentals—Physics, Probability, and Statistics

Day 2

AM Safety, Health and Environmental Engineering
PM Safety, Health and Environmental Management

Day 3

AM Safety Health and Environmental Information Management and Communication
PM Professional Conduct and Ethics

**** Passing Rate for Students**

Who Attend = 80%
